CAREER OBJECTIVE

Aspiring software developer with proficiency in modern web development, backend technologies, and database management. Seeking a challenging role to leverage skills in C, C++, C#, Java, ReactJS, TypeScript, ASP.NET, Go Lang, and SQL Server/PostgreSQL to build efficient, scalable, and impactful software solutions that contribute to organizational growth.

EDUCATION

Master of Computer Applications (MCA) (Pursuing)   **2024-Present**
Chandigarh University, Mohali (Punjab)

Bachelor of Computer Application (BCA)   **2021-24**
Tilak Raj Chadha Institute of Management and Technology, Kurukshetra University (Haryana)

Senior Secondary Education   **2020-21**
Govt. Sen. Sec. School, Lalru Mandi (Punjab)

Secondary Education   **2018-19**
Holy Heart Public School, Dapper (Punjab)

TECHNICAL SKILLS

- **Programming Languages**: C, C++, C#, Java
- **Web Development**: HTML, CSS, JavaScript, Bootstrap, ReactJS, TypeScript
- **Backend Development**: ASP.NET, Go Lang
- **Database Management**: Postgre, SQL Server

PROFESSIONAL EXPERIENCE

Junior   Software   Engineer
Ginilytics IT Solution Pvt Ltd | February 2025 – Present

- Developing and maintaining **full-stack web applications** using **ReactJS**, **TypeScript**, **ASP.NET**, and **SQL Server**.
- Designing and implementing **RESTful APIs** and backend logic to ensure efficient data flow and system scalability.
- Collaborating with cross-functional teams in an **Agile environment** to deliver robust and high-quality solutions.
- Participating in **code reviews**, debugging, and performance optimization for continuous improvement.

Software   **Intern**

Ginilytics IT Solution Pvt Ltd | July 2024 – January 2025

- Gained practical understanding of **project flow**, development lifecycle, and teamwork within a real-world software environment.
- Worked on **frontend development** using **ReactJS** and **TypeScript**, focusing on creating dynamic, responsive interfaces and improving **UI/UX** through modern design practices.
- Implemented **frontend–backend connectivity** through API integration for seamless data communication.
- Contributed to **backend development projects** using **ASP.NET** and **SQL Server**, enhancing application functionality and performance.

PROJECTS

1. **Property Management System Web Application**
   Technologies Used: ReactJS, TypeScript, .NET, HTML, CSS, JavaScript, Bootstrap, SQL Server
   Developed a web-based application for managing property details, enabling users to add, view, and update property information.
   - Designed an intuitive user interface using ReactJS with TypeScript, ensuring strong typing and better maintainability.
   - Implemented backend functionalities with .NET, allowing secure data handling and validations for property details.
   - Integrated SQL Server for storing and managing property records efficiently.
   - Enhanced user experience with interactive forms and client-side validation for error-free data entry.
2. **Bank Management System**
   Technologies Used: C#
   Developed a system to manage customer accounts and transactions for a bank.
   - Implemented features like account creation, deposit/withdrawal, transaction history, and balance checks.
   - Used C# for handling user inputs, transaction processing, and account management.
   - Designed a simple console-based interface for ease of use and streamlined banking operations.

ACHIEVEMENTS

- Secured 1st and 2nd positions in the college coding event "DEBUG THE BUG" on two occasions.

- Secured Second Position in the college "Technical Quiz".

DECLARATION

I hereby declare that all the above information is true and correct to the best of my knowledge and belief.
